*Based on 15,000km/yr, \$80K Salary over a 5 year lease.

New BYD Atto 3 SUV Full electric - From \$44,990 Drive Away

\$186 per week*

What's in the new legislation?

The Australian government are trying to reduce the cost of electric vehicles in order to increase up-take. To do this they have made electric cars under \$84,916 100% FBT exempt. This means on a Novated Lease you pay no tax and no GST on all running costs including the Lease (finance), charging, insurance, registration, tyres and servicing.

Our calculator can show you the cost to your "Take Home Pay" for your EV of choice.
